

temporary tattoos!

Instructions:

1. Print a test sheet (print only page 2 of your Despicable Me 2 printable) on plain paper. If everything looks good, insert the temporary tattoo paper into your home printer paying attention that the right side will be printed on. *Tip: only print one page at a time.*
2. Allow the printed sheets to dry completely before you touch them (wait time 3 minutes).
3. Once the sheets are dry, remove the first side of the adhesive sheet and apply it to the tattoo paper. Make sure that no air bubbles get trapped inside. *Tip: use a ruler or popsicle stick to flatten out the adhesive as you stick it on.*
4. Cut out each tattoo design.
5. To apply one of your Despicable Me 2 temporary tattoos, remove the second side of the adhesive backing and press the tattoo against your skin for 20 seconds. Then wet the paper with a sponge or a wet paper towel for 60 seconds. When the paper is completely wet, remove the paper and you'll have a fun Despicable Me 2 temporary tattoo!

DESPICABLE ME 2
